Descripción del proyecto:

To improve the oral health, physical well-being and quality of life of senior citizens by equipping the Dental School of the Universidad Nacional Mayor de San Marcos with the latest technology to provide the best possible services for the elderly.

To provide quality services and promote healthy habits in senior citizens regarding their oral health.

To equip the dental service with modern and quality instruments for adequate oral health care for the elderly.

Making efficient use of infrastructure and human resources at the Dental Clinic of the Faculty of Dentistry.

Facilitating the use of modern and quality instruments for student practice at the clinic of the Faculty of Dentistry.

The project has been formulated by a Local Committee chaired by the Director of Center for Social Responsibility of the School of Dentistry of the National University of San Marcos, integrated by three teachers of the faculty. Rotary Club San Miguel has been in charge of coordinating activities.

The Local Project Committee developed and applied a survey to a sample of 100 students from the Graduate Center of the Faculty of Dentistry, who recommended the need to equip the dental service for senior citizens that are currently unattended despite the fact that the Faculty Dental Clinic of Dentistry has specialized professional personnel and unused facilities at their disposal.

Población Beneficiaria (Nombre de la Comunidad e indicar número de personas)

The average number of seniors who will directly benefit from this service will be 200 per month, coming from different sectors and districts of Metropolitan Lima and the Constitutional Province of Callao. The indirect beneficiaries will be the students of the Faculte of Dentistry, who will be able to carry out their qualified training as part of the project.

Presupuesto Detallado:
