### Project description:

DECREASE ANEMIA INDEX, DETECT, MONITOR AND IMPROVE IRON INTAKE IN CHILDREN AND PREGNANT WOMEN, which in the district of Magdalena del Mar corresponds to 43.8% of children under 3 years of age reported by the Magdalena Maternal Child Health Center, thus it is important to contribute with the diagnosis, nutritional assessment, control and monitoring of recovery and treatment by discarding anemia.

FOR THIS PURPOSE, WE HAVE PLANNED AS FOLLOWS:

- A) The acquisition of 6 portable hemoglobinometers plus their accessories, 2 stadiometers, 2 baby scales, 2 personal scales plus accessories, for the diagnosis, control, recovery and treatment of anemia in children and pregnant mothers.
- B) We will improve iron intake by providing food supplements such as *GALLETAS NUTRI H ANTINÉMICAS* ["Nutri H" cookies against anemia], among others.
- C) Implementation and equipping of 15 "Glass of Milk" committees with industrial stoves, pots, cooking implements and storage, since due to the Pandemic they have stopped receiving support from the government.
- D) To promote the Project's sustainability, follow-up and control will be done with the purchase of 2 computers and 2 printers.

To carry out this project we will have the support of the Municipality of Magdalena in the area of ..... who supports with the Nutritional Training, the professionals of the Mother and Child Health Center [*Centro de Salud Materno Infantil*] and the mothers in charge of the "Glass of Milk" Committees.

**Beneficiary Population (Name of the Community and indicate the number of people)**

District of Magdalena del Mar, the BENEFICIARY POPULATION will be 1,850 people, including children, pregnant women and people with disabilities under extreme poverty in Sectors 1, 2, 7 and 8 according to the "Analysis of the Health Situation of the District of Magdalena del Mar" dated November 2019.

**Detailed Budget (attach the document as an annex or provide a Google Drive link):**
