

#GREEN TOOL PROJECT

UP GRADING OUR ENVIRONMENT
WITH LOCAL TALENTS

The screenshot shows a Zoom meeting interface. On the left, a video player displays a slide with the following content:

- A cartoon bear reading a book.
- The text "GREEN TOOL" in a stylized, bubbly font.
- The text "SALVANDO EL FUTURO" in white capital letters.
- A large yellow banner at the bottom with the word "BIODIVERSIDAD" in white capital letters.

At the bottom of the video player, the text "19:16 | GREEN TOOL PROJECT EP.1" is visible. To the right of the video player is a gallery view of participants:

- Row 1: Renato Alejandro..., Cristopher Coag..., Emanuel Rosales.
- Row 2: Alesia FP, Jair Paredes, mirella xiomara lo.
- Row 3: nayely ventura, 14 más, Tu.

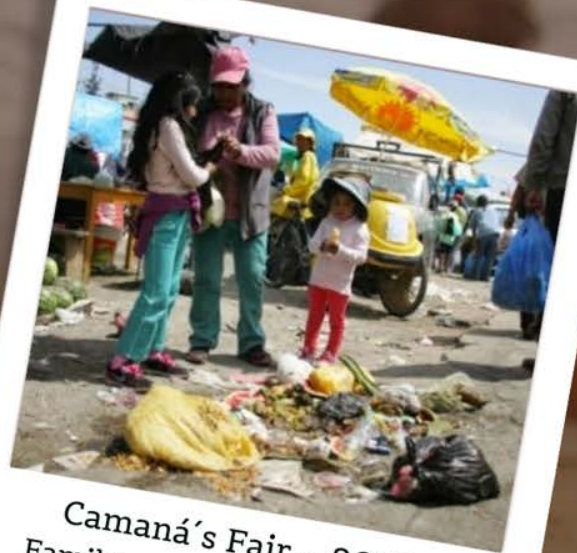

Standard Zoom controls are visible at the bottom of the screen, including icons for mute, video, chat, share screen, and end meeting.

IDENTIFIED LOCAL ISSUES:

- CAMANÁ ranks as one of THE MOST POLLUTED COASTAL CITIES in Arequipa.
- The student population faces a LACK of opportunities regarding their educational level as well as their QUALITY LIFE.

Camaná's Fair - 2019
Family walking near garbage.

How to solve it:

🔍 Scope:

Develop skills in students, as well as enable them to suggest ideas and consequently project development.

Of all the schools in the Camaná District, 3rd and 4th grade secondary school students will be selected, with a total of 934, to be part of the project.

🕒 Duration:

February 1, 2022

November 21, 2022

PROJECT ACTION ITEMS

Promotion of ENVIRONMENTAL EDUCATION and DEVELOPMENT OF SUSTAINABLE PROJECTS through informative talks aimed at 3rd and 4th grade secondary school students.

A PROJECT CONTEST will be run in order to FINANCE and ADVISE the winning ventures.

A website will be used as a database to collect all the projects generated, forming a bank of interest for potential investors.
